

# MID-YEAR UPDATE

By Jesse Singerhouse, General Manager

**A**s I write this article in early July for the August magazine, I thought it would be a good time to give you a mid-year update on your cooperative. So far, this year has been challenging from a kilowatt hour sales and revenue perspective. The mild winter combined with a cooler wet summer has led to sales and revenue being below our budget. Air conditioning and irrigation use is much lower than previous years. That is a good thing for members as energy use has typically been lower than normal and thus energy bills are lower than average.

Lower energy sales also mean lower expenses for the cooperative, typically in terms of purchased power costs, but other costs like interest expense, labor, and maintenance of power lines stay about the same regardless of how much energy we sell. As a cooperative our mission is to safely deliver reliable, affordable, and environmentally responsible energy, not to chase big profits. So having an "okay" year is just fine in the cooperative business model. Cooperative employees and directors are always looking for ways to control costs and reduce expenses, as long as it doesn't take away from our ability to deliver on our mission. Our goal is for your cooperative to maintain a strong financial balance sheet so we can handle the ups and

Our goal is for your cooperative to maintain a strong financial balance sheet so we can handle the ups and downs that Mother Nature likes to throw our way.

downs that Mother Nature likes to throw our way. As the year continues, we will continue to keep a keen eye on our financial performance.

Our staff has been working hard on several line projects designed to increase our ability to feed power to other areas of our system during extended power outages. We have also put in new electric service to dozens of new accounts and have continued our work on right-of-way clearing and pole change outs. Our office has been busy working with our members and getting ready for our new program called The Power Connection– Conversations with Your Cooperative. If you are interested in participating in this program to learn more about how your cooperative works and the issues within the energy industry, please send a note to [info@dunnenergy.com](mailto:info@dunnenergy.com) or call the office at 715-232-6240.

As a member-owner, you also have a chance to give us your feedback as part of our member survey. Visit our website for a link to the survey or scan the QR code at right to take part. We appreciate you taking the time to let us know how we are doing and offer your suggestions on ways the cooperative can better serve members in the future. (140018491)

Enjoy the rest of your summer!

## Hidden Account Numbers

If you find your account number hidden in the pages of this magazine and you call and tell us before the next issue is mailed, we'll put a **\$50 credit** on your electric bill. Happy hunting!

Last month's winners were Robert Upthall and John & Denise Neiderhauser.

# UNCLAIMED CAPITAL CREDITS

Each year Dunn Energy Cooperative returns a portion of your member equity, or ownership in the Cooperative, to you in the form of capital credits. Generally speaking, each October we return about 4% of your capital credit balance in the form of a check or bill credit. We are still a few months away, but be on the lookout for more information on our capital credit retirement in the months ahead. In the following pages you will find a list of names. These members have not cashed their capital credit checks from prior years. We hope that you can help us find these members. If you know any of these people, please have them contact us at 715-232-6240 or via email at [info@dunnenergy.com](mailto:info@dunnenergy.com). (10950003)
